

**HARDHAT POINT OF VIEW**

---

**Why a smarter  
system is  
important for a  
safe & healthy  
resources sector**

---

*Smarter Systems* is a key goal that supports the **Department of Mines and Petroleum's vision for a safe and healthy resources sector\***.

According to *Towards 2020 Regulatory Strategy for Resources Safety, Government of WA Department of Mines and Petroleum Resources Safety*, this means having a fully integrated online systems that streamline administration and regulatory functions.

### Drivers & justification for change:

Legacy systems no longer meet all business needs

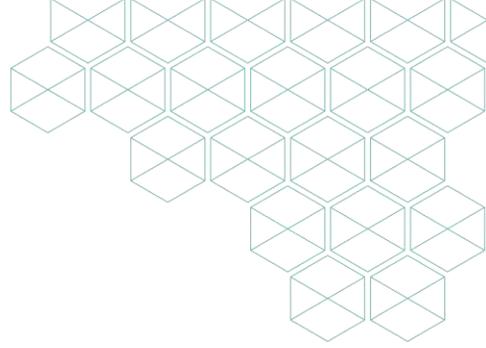

Better information management required for data collection and analysis to drive evidence-based decision making, and track trends and progress

Need for improved regulatory processes and efficiencies

[\\*Towards 2020 Regulatory Strategy for Resources Safety, Government of WA Department of Mines and Petroleum Resources Safety](#)

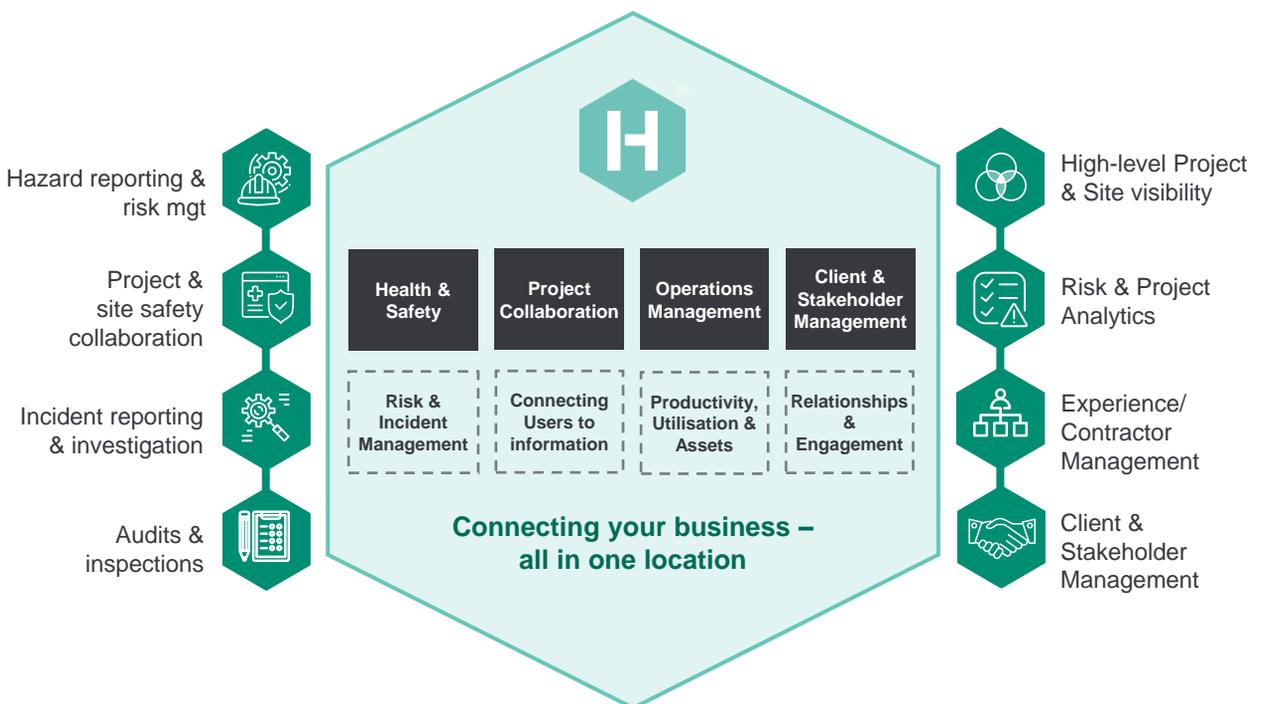

# The HardHat Commitment: A simple, connected platform.

The purpose of this document is to give a clear framework on how the HardHat solution can support your organisation's **goals**, focus areas and measure of success for safety and health initiatives undertaken by the industry regulator.

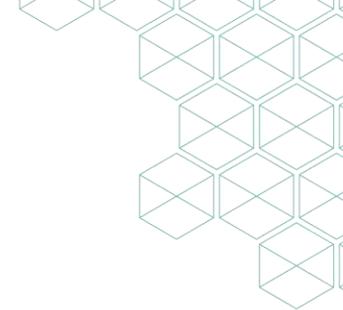

HardHat is committed to providing a fully integrated system that eliminates complexities, promotes productivity and collaboration, and helps businesses operate safer, faster and smarter.

## The best-run businesses operate as one

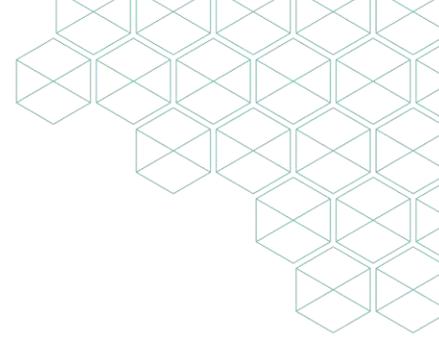

At HardHat, safety, productivity and collaboration are the heart of everything we do. We believe the best-run businesses operate as one, so we help bring together critical business intelligence about your people, operations and projects into a single system.

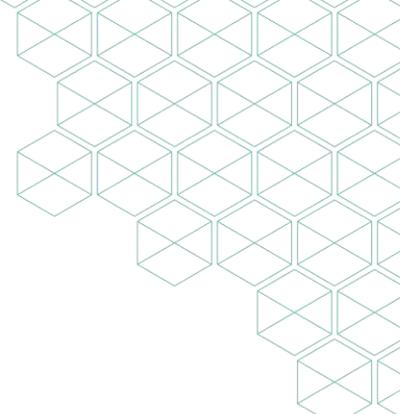

# How HardHat can support the Towards 2020 Regulatory Strategy for Resources Safety.

<b>What does success look like</b>  <i>Department of Mines &amp; Petroleum goals for a safe and healthy Resources Sector</i>	<b>How HardHat can help</b>  <i>Safety regulation system (SRS) enhancements</i>	<b>Measure</b>  <i>Outputs and outcomes expected by the regulators.</i>
<b>Innovative systems</b>  Technological innovations help drive efficiency and effectiveness, increase transparency, and identify emerging safety and health risks and trends.	HardHat brings together three keys aspects: <ul style="list-style-type: none"> <li>• A trusted &amp; secure digital platform</li> <li>• Helps organisations to rapidly adapt to emerging trends in health &amp; safety and a progressive regulatory environment.</li> <li>• Delivers transparency across the organisation</li> </ul>	HardHat helps organisations by <ul style="list-style-type: none"> <li>• Providing instant reporting for improved safety responsiveness</li> <li>• Improving governance &amp; transparency</li> <li>• Assisting with compliance management</li> <li>• Delivering real-time business intelligence for better decisions around safety</li> </ul>
<b>Competency and training</b>  Our staff have the skills, knowledge, qualifications and professional development necessary for consistent delivery of high-quality regulatory services.	HardHat provides: <ul style="list-style-type: none"> <li>• Skilled consulting and implementation services</li> <li>• Ongoing Training and certification</li> <li>• A library of industry forms and knowledge</li> </ul>	HardHat helps organisations: <ul style="list-style-type: none"> <li>• Rapidly adopt improved safety best practices.</li> <li>• Put Safety in everyone's hands</li> <li>• Build a culture around safety with effective change management.</li> </ul>
<b>Digital Platforms</b>  Our digital platforms improve the way we work, make safety and health information more accessible, provide efficient communication channels, and strengthen engagement with stakeholders.	HardHat is a digital platform that provides: <ul style="list-style-type: none"> <li>• A cloud-based end to end solution</li> <li>• A fully mobile solution</li> <li>• Is secure and trusted</li> <li>• Scalable and reliable</li> <li>• And embeds innovation</li> </ul>	HardHat helps to: <ul style="list-style-type: none"> <li>• Connects incidents to outcomes</li> <li>• Keep stakeholders engaged</li> <li>• Helps maintain compliance and auditability</li> <li>• Improves collaboration</li> <li>• Minimise risk and improve compliance management</li> </ul>

<b>What does success look like</b>  <i>Department of Mines &amp; Petroleum goals for a safe and healthy Resources Sector</i>	<b>How HardHat can help</b>  <i>Safety regulation system (SRS) enhancements</i>	<b>Measure</b>  <i>Outputs and outcomes expected by the regulators.</i>
<b>Data-driven Decisions</b>  Our enhanced data collection allows better analysis to support evidence-based decision making, and track trends and progress.	Data collection <ul style="list-style-type: none"> <li>• Real-time data capture</li> <li>• Existing / legacy systems</li> <li>• User or systems input               <ul style="list-style-type: none"> <li>• Desktop / browser based</li> <li>• Mobile forms based</li> </ul> </li> <li>• Reporting and analytics from data</li> </ul>	HardHat provides: <ul style="list-style-type: none"> <li>• A mobile application for data collection and reporting</li> <li>• Comprehensive and pre-configured reporting and analytics capability for all critical safety benchmarks and KPIs</li> </ul>
<b>Balanced and integrated use of Resources</b>  Our resources are allocated to optimise effectiveness and efficiency.	HardHat can improve the effective use of resources to plan, schedule, manage and respond to health and safety initiatives and incidents using one platform.	HardHat allows HSE management and leadership to easily plan and schedule critical Health & Safety meetings and activities. The scheduling and response to safety activities can all be performed by distributed teams. In addition, HardHat provides access to the health and safety solution from a mobile device, putting safety in everyone's hands.
<b>Lessons shared</b>  We share the lessons learned from incident analysis and recognised as good practice.	HardHat provides: <ul style="list-style-type: none"> <li>• A collaboration, reporting, analytics and dashboards capability</li> <li>• Pre-configured Benchmark and KPIs and Metrics</li> <li>• Real-time information sharing</li> </ul>	Using HardHat, a organisation can: <ul style="list-style-type: none"> <li>• In real-time receive notifications to critical safety incidents and therefore respond on a timely basis</li> <li>• Report on and analyse key leading indicators for safety issues</li> <li>• Refine and improve safety processes and adoption</li> </ul>

<b>What does success look like</b>  <i>Department of Mines &amp; Petroleum goals for a safe and healthy Resources Sector</i>	<b>How HardHat can help</b>  <i>Safety regulation system (SRS) enhancements</i>	<b>Measure</b>  <i>Outputs and outcomes expected by the regulators.</i>
<b>Guidance Provided</b>  We draw on a wide range of internal and external expertise to produce targeted guidance for industry.	HardHat has a dedicated industry team based on Perth. This team has hands-on client, industry and solution expertise in Health and Safety.	With HardHat you can; <ul style="list-style-type: none"><li>• Leverage our industry knowledge and know-how</li><li>• Use standardised safety workflows processes to improve safety management</li><li>• Improve safety compliance and reporting for the field to the boardroom</li></ul>
<b>Collective learning opportunities</b>  Workshops, roadshows and other information sessions provide opportunities to learn from collective experience and advance our safety and health knowledge.	HardHat has a strong culture of continuous innovation. Through multiple industry engagements and workshops with clients and our ecosystem, we are delivering the next generation safety reporting system today.	Many safety reporting systems in the market today have been slow to adapt to the changing needs of the industry and regulators. HardHat is developed on a leading enterprise cloud platform which allows us to rapidly gather learnings and apply best practices.

# At HardHat, safety, productivity, and collaboration is at the heart of everything we do.
